

LET'S GROW LEADERS

Karin Hurt & David Dye Speaker Introduction

Do you ever wish your team had more energy, would get more done, or solve problems on their own?

Our speakers today will share clear tools that they promise will help you improve your team's morale, motivation, and productivity.

They:

- Are internationally recognized leadership experts and award-winning authors of three books.
- Karin is a former Verizon executive with a track record of turnaround successes across multiple disciplines including sales, customer service, and human resources.
- David is a former executive, elected official, and transforms organizations that want to have global impact.
- As part of their Winning Wells initiative, they're building a clean water well in Cambodia in our honor.

Perhaps their greatest achievement, however, is that they have managed to leave a cell phone charger behind in every state of the Union.

Please help me welcome speakers, authors, (and by the way can they borrow your charger...?)

Karin Hurt and David Dye!
