

# LET'S GROW LEADERS

## **Karin Hurt Introduction**

Do you ever wish your team had more energy for what matters most? Are you looking for more joy in your work?

CEO of Let's Grow Leaders, Karin Hurt, will share clear tools to help you improve your team's morale, motivation, and results.

Karin is an internationally recognized leadership expert and award-winning author of two books. *Winning Well: A Manager's Guide to Getting Results—Without Losing Your Soul* and *Overcoming an Imperfect Boss*.

Her work with clients is grounded in her two decades of experience as a Verizon executive with a track record of turnaround successes across multiple disciplines including sales, customer service, and human resources.

As a part of their Winning Wells initiative, Karin is building a clean water well in Cambodia in our honor.

Perhaps her greatest achievement, however, is that she has managed to leave a cell phone charger behind in every state of the Union.

Here to share *Winning Well* with us, please help me welcome speaker, author, (and by the way can she borrow your charger? )
